

YASHVEER SINGH

yashveer8000@gmail.com | +919315008358 | Uttar Pradesh, India | [LinkedIn](#) | [LeetCode](#) | [GitHub](#)

EDUCATION

- ❖ **Noida Institute of Engineering and Technology**, Uttar Pradesh in 2022-Present Bachelor of Technology, Computer Science Engineering, CGPA: 8.16
- ❖ **Shri Amichand inter college kasna**, Uttar Pradesh in 2022 Higher Secondary – Class XII (UP), Percentage:79.9%
- ❖ **Shri Amichand inter college kasna**, Uttar Pradesh in 2020 Secondary – Class X (UP), Percentage:84%

SKILLS

- ❖ **TECHNICAL SKILLS:** C++, HTML, CSS, JavaScript, SQL, React-JS, Machine Learning.
- ❖ **CORE COMPETENCIES:** Data Structures and Algorithms, DBMS, Operating Systems, Object-Oriented Programming.
- ❖ **SOFT SKILLS:** Problem Solving, Team Management, Creative Thinking, Analytical Thinking.

WORK EXPERIENCE

Bharat Intern | Full Stack Development Intern Aug'2024–Sep'2024

- ❖ Working on **React and MERN stack** projects, developing scalable web applications.
- ❖ Implementing authentication, API integrations, and database management using **MongoDB, Express, React, and Node.js**.
- ❖ Building and optimizing user-friendly interfaces with **React.js**.
- ❖ Enhancing **backend performance** by improving API response times and database queries.

PROJECTS

Cryptocurrency Monitoring Dashboard |

- ❖ **Developed a dynamic cryptocurrency dashboard** using **React, HTML, CSS, and JavaScript**, providing **real-time price and market data visualizations** through **interactive charts**. Ensured accurate and up-to-date insights into price trends, profits, and losses for users.
- ❖ Implemented **user-centric features, including dark mode, watchlist creation**, and customizable price alerts, enhancing user experience on both desktop and mobile devices for seamless accessibility and personalization.
- ❖ Designed easy-to-understand charts to show market data clearly, helping users track trends and make decisions.

Heartseases | Mental Health Support Platform |

- ❖ Developed a **mental health support** web application using **Python Flask and machine Learning**.
- ❖ Designed a **community forum** where users can share experiences and seek support from others.
- ❖ Implemented a **journal feature**, allowing users to log their daily thoughts and track their mental well-being.

AI Chatbot for Automated Assistance |

- ❖ Built an **AI-powered chatbot** using **React and Gemini AI API** to provide automated responses and personalized assistance.
- ❖ Integrated **natural language processing (NLP)** to improve chatbot understanding and interaction with users.
- ❖ Deployed the chatbot for multiple use cases, including **customer support and interactive Q&A systems**.

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- ❖ Solved 350+ coding questions on platforms such as LeetCode, and GeeksforGeeks (GFG).
- ❖ **Member, Coding Club** – Contributed to coding initiatives, collaborative projects, and knowledge-sharing within the community.
- ❖ **Participated in the Smart India Hackathon (SIH)** – developing an **IoT-based project** to differentiate between **organic and non-cyclic materials**, enhancing automation and efficiency in waste management.
